PREFACE

The book “Zonation Based Education Quality Index” is one of the publications from Center for Education and Culture Data and Statistics (PDSPK), Ministry of Education and Culture. This book is the first issue of an education quality index that provides information about the number of zones in each province, the number of elementary, junior high, high school and vocational schools that are members of the zone, Education quality index scores per level and their average in each zone and thematic maps of Education Quality Index scores per zone.

The data sources used are the 2019 UN scores and the zones that have been formed based on Accreditation, National Examination, Education Quality Assurance and Teacher Competency Test. The source of the map used is the Earth Map of Indonesia, Geospatial Information Agency 2016-2018. The coordinates of the school are sourced from the Dapodik processing in June 2019.

We would like to thank all parties who have participated in the publication of this book. Suggestions and input are highly expected in the context of future improvements.
